Huobi API Change Notification

Notification:

Huobi Global will introduce one new REST API endpoint : Get Asset Valuation — GET /v2/account/asset-valuation

Content :

Dear API user,

Huobi Global will introduce one new REST API endpoint :

Get Asset Valuation — GET /v2/account/asset-valuation

This endpoint allows parent user and sub user to query the valuation of the total assets of the account in btc or fiat currency. The balance valuation is based on the accumulation of individual account's account balance.

Effective Date : July 17, 2020(GMT+8)

All the changes will be updated on https://huobiapi.github.io/docs/spot/v1/en/
