

# Huobi API Change Notification

**Notification:** Reflect account update of 'deposit' or 'withdraw' in existing Websocket channel 'accounts.update#\${mode}'

## **Content:**

Dear API user,

Currently, account balance change caused by deposit or withdrawal is reflected in channel 'accounts.update#\${mode}' with changeType as 'other'.

Since the effective date of this notification, account balance change caused by deposit or withdrawal will be reflected in channel 'accounts.update#\${mode}' with changeType as 'deposit' or 'withdraw'.

At the same time, v1 version account update channel 'accounts' will be also reflecting 'deposit' & 'withdraw' in field 'event'.

Effective Date: 21<sup>st</sup> Aug, 2020 (GMT+8)

All the changes will be updated on <https://huobiapi.github.io/docs/spot/v1/en/>

Huobi Global

21<sup>st</sup> Aug, 2020 (GMT+8)

## Change Details

Currently, account balance change caused by deposit or withdrawal is reflected in channel 'accounts.update# $\{mode\}$ ' with changeType as 'other'.

Since the effective date of this notification, account balance change caused by deposit or withdrawal will be reflected in channel 'accounts.update# $\{mode\}$ ' with changeType as 'deposit' or 'withdraw'.

At the same time, v1 version account update channel 'accounts' will be also reflecting 'deposit' & 'withdraw' in field 'event'.

## What are the Impacts on You, and What You Need to Do?

API users should evaluate the business impact caused by the new symbol introduced, further to make relevant change in client's application, if needed.

All the changes will be updated on [Huobi API Docs](#) on the effective date.
